MORE ABOUT BOB

We all know there is a major epidemic of suicide because of all the bullying going on and that there is also a major epidemic with drugs and alcohol in our schools. I have a very unique way of reaching your youth. I have conducted assemblies in 6,000 schools in front of over 6 million people. In the time I have held these events, I have received hundreds of emails from young people that have decided not to end their life and that has made what I do so rewarding. I'm a one-man volleyball team and will play a girls team, boys team, and faculty team at your school, then following the games I will speak on these vital issues. The games are designed to get their attention so that I can speak to them and reach their hearts after a time of entertainment and competition.

A LETTER TO BOB

"When you came to my school, I was about to end my life. I did not have any thing left to do except take up space in everyone's daily lives. I felt useless. I was going to end my life on my birthday which is coming up on September 26. I had already prepared to hang myself with my own computer cord. It was only a matter of time. It is now my birthday my and because of your message I'm alive!"
